WhoIs Latest

"Impressive Waterfall Screensaver" is a beautiful animated screensaver which shows incredible and peaceful pictures of nature waterfalls. How to install: 1. Download an archive and unpack it to get the compressed archive "ImpressiveWaterfall.scr.exe" 2. Open "ImpressiveWaterfall.scr.exe" and click the "Install" button. 3. You will see a setup wizard where you can customize the look of the screensaver. You can make these changes at any time during the screensaver initialization. 4. Do not uninstall the screen saver. "ImpressiveWaterfall Screensaver" is still on the machine after you close the app and as long as you have a screensaver selected. Note: "Impressive Waterfall Screensaver" does not activate when the system is in "sleep" mode. 5. If you want to delete the screensaver, select "Start" button and click "Control Panel". You should now see the uninstall control there. 6. If you uninstall "Impressive Waterfall Screensaver" the screensaver may not be activated again without re-entering the correct password. You can re-activate it by selecting "Start" button and clicking "Control Panel". 7. Do not forget to press the "Apply" button if you re-activate the screensaver. 8. The screensaver is a.scr file and it is not an.exe file. So, It cannot be run by simply double clicking on it, unless you have the executable option checked. 9. It is a.scr file so you need to convert it to a.scr file before running it for the first time. You can do this by clicking "Browse" button and selecting the "ImpressiveWaterfall.scr" file. 10. It will be asked if you want to uninstall the screen saver, even if you do not have it installed right now. If you want to keep the screensaver, choose "No". Otherwise, select "Yes" and proceed further to next step. 11. Select the new screensaver by clicking "OK" button. 11. If you want to uncheck the checkmark of "Run on startup" and "Re-activate at logon", select "OK" button again. 12. Click "OK" button again. 13. Restart your computer to see the screen saver in action.
