y y hacer nuevas estadísticas. Es necesario hacer un análisis lógico de la percepción de derechos humanos en el mundo actual. Se trata de una cuestión macro que se debe tener en cuenta.

¿Estamos pasando a un estado en que los principios de la Declaración Universal de los Derechos Humanos se están violando en la práctica cada día? ¿O no debemos ser capaces de distinguir entre los conceptos humanos de derecho y de obligación? ¿Es posible estar atrapado entre la práctica de la injerencia para defender los derechos humanos y nuestra obligación, según el papel de las partes de la Declaración Universal de los Derechos Humanos, de combatir las desigualdades, no sólo a escala interna sino también a escala mundial? Estamos viviendo una especie de vacío que a todas luces resulta insostenible, ya que los desequilibrios se vuelven más visibles y los peligros más graves se extienden a niveles que, hoy en día, no son propios de una nación sino del mundo entero. En definitiva, toda la discusión sobre derechos humanos tiene que basarse en el análisis lógico. Esto no significa que no sirva el debate sobre los derechos humanos para establecer mejoras sobre ese continente, sino que en términos de análisis lo que hay que hacer es hacer un análisis lógico.

When you need a little breathing space, this 7.5" high Pressure Relief valve is the perfect solution. The choice of air-conditioning service technicians all over the world for over 40 years, the Airos® range offers a tremendous choice of performance and features for any industry, including High Pressure Service. This valve features the Airos® pressure relief system which allows the air to pass normally to the
