For the first time in two years you can play Touhou together! Are you ready to spill blood and play as the loveable Saie Ashi in the hopes of finding a way to undo the events of the Immelmann Enthronment? For the first time in three years you can play Touhou together in the hopes of burying the Gensokyo behind Impenetrable Sky. Regardless of which of these events you choose, you'll be traveling in style on one of the Freedom Train's "most renowned" boats; the Sprinter Mini! Note: Currently the Sprinter Mini is only available to Sotarou Tsukishima goers. While all events during the Touhou Silver Night Festival are FaiR, much of the community (including the lovely and courteous performers) will call HOTD in the event order above. I'm impressed the first volume just got imported after all this time...

Enter a world of violent, intense battles between powerful fighters and fearsome beasts. A ferocious day-to-day life at war, where the objective is to prove yourself. Join us at the sign-ups at FULLY REALISTIC (AND TOO REAL) VEHICLES The massive scale of the maps is supported by the realistic mobility of the units. CONCUSSION SYSTEM You'll need to take care of your health and always stay vigilant. We've implemented a coherent health system that allows you to recover from the various attacks you might suffer or receive. And conversely it affects the recovery rate of the aggressive ones. QUICK-SELECT We've chosen to add an option of quick selection of units, a feature that has already been implemented in the famous KSP. There are also configuration options to optimize the process. A JOURNEY OF YOUR LIFE Now that your training is complete and your toughness level has raised you are sent to the field to begin your first mission. The MAPLE is not a static environment. It changes and evolves throughout your life as you're able to get new jobs and skills, increase your talent level, and make better choices. PRECISE MULTI-TARGETING You'll have to choose your targets wisely. You're able to target specific areas on the map and even specific segments of the units. THE SIMPLISTIC IMPOSSIBLE ASIA The maps in the series are so big that it doesn't make sense to have too much detail in them. Therefore we've opted to opt for very different aesthetics with lots of details for your pormos and visual perspective. WE'RE CUSTOMIZING THE MAPS We're going to be releasing the first two maps and we would love to get your feedback on how to improve the online experience with the game. The maps that will be released are: THE VALE OF THE WITCH A huge, varied, snowy land. Go from valley to mountain and everywhere in between. There will be plenty of snow, trees, waterfalls and rivers. Over three hours of gameplay, you are required to take part in several missions. BATTLE UNITS
